"EURid has been working with UNESCO since 2011 to investigate the development of online multilingualism. IDNs are one of the main avenues to ensure adequate support to online multilingualism. We are very happy about the findings of the CENTR survey on IDNs as we can see a trend towards their deployment at European and international level. We would like to thank all those who participated in the survey for their valuable contribution" - Giovanni Seppia (EURid)

“Reputation is an idle and most false imposition oft got without merit, and lost without deserving”

Since a few weeks, ICANN’s CEO Fadi Chehadé has been travelling the world even more intensely than he did before. Participation in APNIC, APTLD, IG meetings in Paris, CEO roundtables across the world… At every single one of those occasions he underlines that he is serious about his commitment to implement much needed changes at ICANN. And he walks the talk. >>> Click to continue reading this blog

49th CENTR General Assembly (Lisbon)

Peter Vergote (DNS Belgium) was re-elected as CENTR Chairman during the 49th CENTR General Assembly in Lisbon, Portugal. The meeting was hosted by the Portuguese Registry (.pt, FCCN) and well attended by some 70 participants (35 Registry Operators). The General Assembly also re-appointed Anne-Marie Eklund-Löwinder (.SE) to the Board.

Some of the key topics during the meeting were;
- WTPF overviews and panel discussion
- Security incidents/issues from Registry operators
- Impacts of new gTLDs on ccTLD models
- HR issues in Registries
- Results of a study on domain name demand (CENTR/ZookNIC)

Joint CENTR and LACTLD Marketing workshop

CENTR and its sister organization for the Latin American and Caribbean region (LACTLD) organized a joint Marketing workshop in Barcelona. The workshop was a unique chance to compare the ccTLD markets and challenges between both continents. 50 participants from 28 registries joined the meeting which was hosted by Fundació .cat.

28th CENTR Administrative workshop

The CENTR Administrative workshop, hosted by .pt in Lisbon, focused on Whois and data accuracy. ccTLDs have already a good reputation for their efforts to keep to keep the information in the Whois database accurate and up-to-date. 40 participants form 29 registries exchanged their experiences and learned about each other’s projects to clean up the database.
