Library

[Library](#) [Legal case library](#)

The CENTR library contains all CENTR documents and presentations going back to 2000. Only Full Members can access all documents. A robust search engine allows for full text search across the whole library. A wide range of filters allow to narrow down the search results for all documents and presentations as of January 2015. Please note that additional filters have been applied to 2015 and 2016 documents only. All previous years' documents have been re-categorised and will show up in the search queries but do not have these additional filters.

Marketing working group

The CENTR Marketing Working Group is the place to be for all people dealing with a registry's communication issues in a broader sense - be it marketing, sales, advertising as well as press, public or customer relation issues.

Scope of the Marketing Working Group:

The CENTR Marketing Working Group is the place to be for all people dealing with a registry's communication issues in a broader sense - be it marketing, sales, advertising as well as press, public or customer relation issues.

The scope of the Marketing Working Group is to foster the exchange of experiences, trends and good practices related to marketing and communication topics like*:

1) Marketing of domain names and non-domain-related registry products and services, for example:

- Defining marketing strategies with defined goals and success indicators for evaluation
- Market research, studies and surveys
- Branding and (price) campaigning
- Customer relationship management and channel marketing
- The role of marketing in product development

2) Registries' overall communication strategies like:

- Image campaigns
- Corporate Social Responsibility (CSR)
- Internal / stakeholder communication
- Reputation management and crisis communication

3) New trends in media and communication technologies like:

- Social media
- Storytelling and content marketing
- Usability in websites and registrar panels
- Creating the perfect media mix in on- and offline communication

*Please note that this is a non-exhaustive list of examples only

Scope as adopted by the participants of the 18th marketing workshop on 28 March 2015 in Bari, Italy

Upcoming workshops

24th CENTR Marketing workshop

12 - 13 October 2017

ZAGREB, CROATIA

CENTR, the European ccTLD association

CENTR is the association of European country code top-level domain (ccTLD) registries, such as .de for Germany or .si for Slovenia. CENTR currently counts 52 full and 9 associate members – together, they are responsible for over 80% of all registered country code domain names worldwide. The objectives of CENTR are to promote and participate in the development of high standards and best practices among ccTLD registries.

Formed in 1998, CENTR is a not-for-profit organisation dedicated to supporting the interests of country code TLD managers. Its secretariat works on behalf of its members, and its regular meetings and forums are key venues for the sharing of knowledge and global coordination in the industry.

CENTR's main purpose is to provide its members with a forum for exchange of information. It also acts to promote members' interests in a wider context – engaging with the international community on matters of interest.

Facts

- Founded in 1998 and established in 1999
- Brussels-based secretariat
- 52 Full Members
- 9 Associate Members
- 12 Observers
- CENTR members account for more than 70 million country code top-level domain name (ccTLD) registrations, which represents about 80% of the total number of ccTLDs registered worldwide
- The objectives of CENTR are to promote and participate in the development of high standard of ccTLD registries for the benefit of its members and the internet
- The organisation has a European focus
- Together with similar organisations with focus on other regions of the world, CENTR achieves its objectives through consensus building, coordination and collaboration, while respecting cultural and historical variations amongst ccTLDs and their local internet communities

Meetings and structure

- General Assembly
- Secretariat (5 staff members)
- Board of Directors (5 Directors)

- Legal & Regulatory Working Group
- Technical Working Group
- Administrative Working Group
- Marketing Working Group
- Research & Development Working Group
- Security Working Group
- Ad hoc IGF Working Group

Council of European National Top-Level Domain Registries

The association for exchange, dialogue and innovation of country code domain registries in Europe

CENTR is the association of European country code top-level domain (ccTLD) registries, such as .de for Germany or .si for Slovenia.

The objectives of CENTR are to promote and participate in the development of high standards and best practices among ccTLD registries, as well as to provide its members with a forum for exchange of information. It also acts to represent members in a wider context, engaging with the international community on matters of interest.

LEARN MORE —

EU Policy Update - June 2017

2017-06-26 EU POLICY UPDATES

Unsurprisingly, national debates about how to increase security in the light of terrorism carry over into this week's European Council meeting. It remains to be seen if fundamental rights can stand the test of time. "Brussels" is getting ready for the summer recess, yet not without giving a good pre-break push to some of the key dossiers (e.g. ePrivacy draft report, Consumer Protection Cooperation trilogue). Watch out for a couple of new (or awaited) initiatives in the last trimester of 2017, such as cybersecurity, data flows and collecting e-evidence across borders.
